Section 2. Research

Funded research projects as Principal Investigator

1) “Development of linguistic and semiotic protocols for Artificial Intelligence models informed by multimodality”

Start date: 01/01/2022 – End date: -31/12/2024.

Line of financing: Research and innovation. “Programma Operativo Nazionale Ricerca e Innovazione” 2014-2020, Azione IV, 4, “Dottorati e contratti di ricerca su tematiche dell’innovazione”.

Sum funded: three-year full-time contract for two positions of Assistant Professors and Research Fellows.

Duration: 36 months

2) “EU-MADE4LL: European Multimodal and Digital Education for Language Learning”.

Start: 01-09-2016 - End: 31-08-2019

Project Reference: 2016-1-IT02-KA203-024087

Programme: Erasmus+

Key Action: Cooperation for innovation and the exchange of good practices

Action Type: Strategic Partnerships for higher education

Partners: 1) Università di Messina, 2) Università di Roma Tor Vergata, 3) L3S Leibniz Universität (Germany), 4) Aarhus Universitet (Denmark), 5) Università di Firenze, 6) University of Leeds (UK), 7) Rocca Creative Thinking (Sheffield, UK).

EU grant: 436853 EUR

3) “Models of verbal and non- verbal interactions in Web 2.0 textuality” PRA 2008/2009 (University of Messina)

Project reference: ORME09LP9S

3) “Blogs in speech and writing: Analysis of modality markers in blogs” PRA 2006/2007 (University of Messina)

Project reference: ORME07MJZP

4) “S.E.L.E.: Scientific English Learning Environment” (2005-2006), University of Messina

Funded research project as Associate

1) “ACT - Access through Text - Accessibilità mediata dai testi”.

PI: Anthony Baldry. PRIN 2009 (National research project).

Project reference: 2009RL3NF4_001

Start date: 17/10/2011 - End date: 17/10/2013

Duration: 24 months

Research interests

- Multimodal critical discourse analysis in digital media with a focus on the exploration of hate speech, the representation of migration, Islamophobia and othering techniques in both verbal and visual texts and in their interlaced combinations.
- Development of transcription and annotation models to unpack and analyse interactional phenomena of digital environments, with specific reference to video-mediated communication in a multimodal perspective;
- Theoretical analysis of meaning-making and semiosis of communication from a multimodal perspective within the framework of systemic-functional grammar in computer mediated environments.
- Digital literacies and translanguaging in intercultural pedagogical scenarios.

Research activities in international networks

1. Research Co-Leader in the University-National Centre for Research and Innovation Group on “Data-driven approaches to multimodal video corpus analysis within a systemic-functional theory of the English Language”, 30/05/2022-ongoing.
2. Research Associate in the international research group on “Hate speech online”, 30/11/2020-ongoing.
